

Bullet Type III Network Camera

Quick Installation Guide

This series of camera is designed as a whole compact structure, and you only need to secure the mounting base to the ceiling with the supplied P A4 screws.

Product Structure Diagram

2. Three-Axis Adjustment

Loosen the adjusting nuts on the bracket, and adjust the camera from P/R/T direction.

P Direction: 0~360°adjustable.

T Direction: 0~90°adjustable.

R Direction: 0~360°adjustable

Adjust the lens to the surveillance angle. Tighten the adjusting nuts to complete the installation.

Bullet Camera Overview

Installation

Note:

Please make sure that the ceiling is strong enough to withstand three times the weight of the camera and the housing.

Steps:

1. Install the Camera
